

# A WARNING !

## AGAINST APERTURE LABORATORIES 'MOTIVATION INITIATIVE'

Aperture Laboratories  
'Motivation Initiative' is  
an alarm app designed  
to eliminate over-  
sleeping.

SOUNDS OVER **THE MOTIVATION**  
**85 DECIBLES** **INITIATIVE GOES**  
HAVE PROVEN **TO CAUSE**  
**HEARING LOSS,** **OVER 200.**

However, it has been  
proven to cause  
**significant damage** to  
the user's health.

**"And it will wake you up, I made sure of  
it. Lab boys said it was **too loud** and  
could be **dangerous** if we **didn't** turn it  
**down. Ha!** Just try to sleep through  
**that!"****

- Real quote from CEO Cave Johnson, showing his complete lack of care  
for regulations and user safety.

Aperture Laboratories is so  
mismanaged, it allowed,  
one of it's own, **highly**  
**unstable** products to add a  
feature to their app that  
they **cannot remove**.

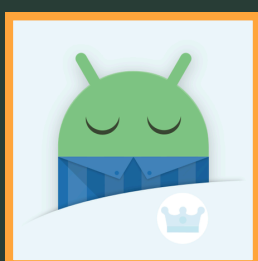

**And you really**  
**trust them with**  
**your health?**

**FOR YOUR SAFETY, DO NOT**  
**DOWNLOAD THE APERTURE**  
**LABORATORIES MOTIVATION**  
**INITIATIVE !**

If you are still looking for an alarm app,  
here are some safe alternatives:

Alarmy

Sleep As  
Android

Sleep Cycle
