

TROUBLE FINDING A BATHROOM?

The Lavigator is here to help!

Did you know people use the bathroom an average of 4–10 times a day?

The Lavigator app comes with a built in calendar that you can log your bathroom usage with. It will also show you the nearest bathroom and how to get there quickly.

Your phone screen has many more bacteria than the average toilet seat

The Lavigator lets you rate (and see the ratings of) bathrooms with several factors including: supplies, business, accessibility, privacy, comfort, and most importantly cleanliness.

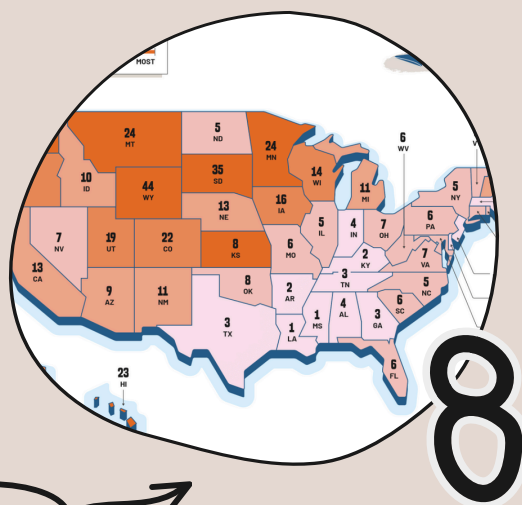

Vanilla is the most popular scent in the world

With the Lavigator Mobile, you can use a variety of differently scented air freshening pods in your local public restrooms before and after you use them.

The United States has 8 public bathrooms for every 100k people

Lavigator shows you short condensed information about bathrooms within a customizable radius of yourself. The quick snapshots include a cumulative rating of the bathroom as well as how many people reviewed it.

In the US alone 13 million people suffer from incontinence

With the Lavigator you can filter for accessible, gender neutral, or family restrooms. The Lavigator Mobile's compass feature can even help you navigate to hard to find bathrooms.
