

The Wise Wizard

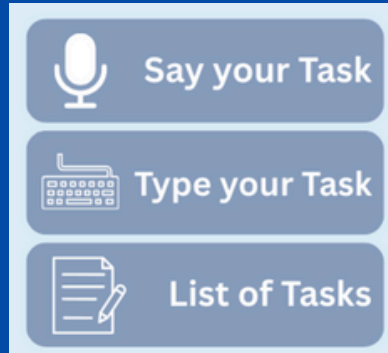

How to install it and what it can do for you.

1

Required Hardware

The Wise Wizard can be installed into any computer or mobile device with a USB-C port.

3

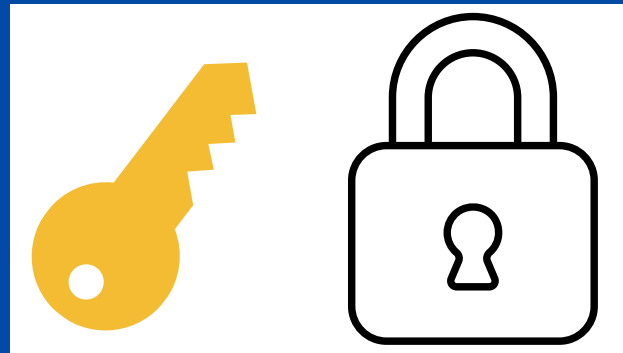

Interaction

You can communicate with the Wise Wizard digitally or vocally.

4

Connect

Connect with your family and friends by letting the Wise Wizard set up video calls for you!

2

Trust and Privacy

The Wise Wizard does not collect data. Due to being a local program, it cannot be tampered with wirelessly.

5

There's More!

The Wise Wizard is your little helper for all things digital. He can install programs with your permission, listen to and answer your questions, and remind you of daily tasks and events!

He does it all without complaints and a big smile on his face!

Our mission is to make technology more accessible to all people, especially those from generations where the world didn't revolve around technology. Wise Wizard is meant to bridge the gap for so everyone can interact with the internet and communicate online without the hassle of having to learn something new.

Order your Wise Wizard today at www.macspotpyrc.com or call 1-800-000-6767 to speak with a salesman or representative
