

CAN'T GET OUT OF BED?

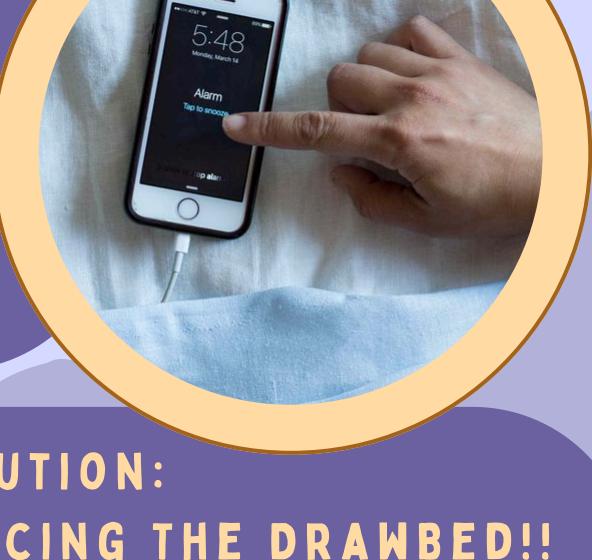

"BAD" AT MORNINGS?

You're not alone! A survey by Avocado Mattress found that people wake up later than planned about 8 days a month. That's nearly one-third

of the time!

WHY IT'S HARD TO GET UP
Factors like poor sleep quality, inconsistent schedules, and late-night phone use all make waking up harder, leading over 55% of people to hit the snooze button daily.

THE SOLUTION: INTRODUCING THE DRAWBED!!

- The bed inclines up to 90° with a hydraulic system forcing you to get up.
- Has a phone dock to encourage you to disconnect before sleep.
- The companion app syncs your alarms and sleep schedule for easier mornings.

HOW THE DRAWBED CAN CHANGE YOUR MORNINGS

The Drawbed helps you stick to a consistent sleep schedule, spend less time in bed, and improve sleep quality. It also makes waking up a more enjoyable and effortless part of your day.

WHY IT MATTERS

Waking up at the same time every day improves your sleep quality, boosts focus, and gives you more energy for the day ahead. Small changes in your morning routine can have a big impact on your overall health and productivity.

JOHN JOHN

The Drawbed changed my life.

BOB

I wake up standing... and slightly confused. 10/10 would recommend.

ROBIN

My cat is terrified, but I wake up on time now.
